

S.A.A.G.A.

South Australian Amputee Golf Association

Patron's Message

It was with some pleasure that I received the invitation to to act as Patron for the South Australian Amputee Golf Association. Of course that pleasure was initially tinged with some sadness at the circumstances of the members who comprise the association, but after witnessing the enthusiasm and the energy of the members, particularly the President, Gary Hart whose commitment to this organisation has been truly inspirational, my emotions are one of considerable admiration. Gary's initiative of the First Swing Golf Programme has been rewarded by the numbers that he has been able attract and the success in gaining such tremendous support for this inaugural event. The talent, also of the members of the Association is similarly to be admired.

I am looking forward immensely to the inaugural South Australian Amputee Golf Open, although I suspect that I will be severely embarrassed by the talent on display, and congratulate all those who have worked so hard to gain first, the recognition of the talent, and then, secondly, the resources to conduct such a significant event.

I wish Gary and his team every success for this special day.

Graham Cornes
